

# Hose & Hose Reels

---

## Hose, Ducting & Tube

PVC and rubber hoses comprising suction and delivery hoses, reinforced hoses, material handling hoses, chemical hoses, fuel and oil hoses and special purpose hose for wash down applications.

Flexible ducting hoses include PVC, Polyurethane, PVC wire reinforced and high temperature ducting, for material handling applications, fume and air extraction. Brands include: Oregon, Superflex PU-R and Detroit. Our PTFE, PVC, Polyurethane and Nylon hose tubes for various industrial hose applications including chemical transfer, available in many combinations of colours and coil lengths.

## Hose Assemblies

The unique Hose Assemblies range includes ready made assemblies using food hose and water suction and delivery hose made to your requirements.

Our food hose assemblies are made using Trelleborg™ hose with RJT, SMS, DIN and Tri-Clamp fittings.

The water suction and delivery hose assemblies are made using genuine Bauer couplings and 10 bar hose. They are then crimped using stainless steel or mild steel ferrules, which give a much higher safety factor.

## Hose Reels & Parts

We stock a wide range of Hose Reels to suit hoses from 6mm to 52mm. They include some of the best known reels in the industry such as Coxreel, Pathfinder and the McNaught Retractable reel. They are suitable for a wide range of applications ranging from washdown reels, industrial reels to portable rewind reels.

Hose racks and accessories are also available.

### **Cable Reels**

The cable reels range consists of a variety of spring rewind electrical cable reels from leading brands such as Coxreel and E-zy reel.

They can be either wall or ceiling mounted and are suitable for use with power tools, low voltage inspection lamps and other electrical appliances.
