

Refuelling

Fuel Handling Equipment

Our Fuel handling Equipment range includes Macnaught fuel pumps, diesel transfer kits, lever drum pumps and rotary pumps.

Oil Transfer Equipment

This range includes oil pumps, suction guns, oil ratio pumps, oilmaster pumps, air operated oil pumps, transfer pumps and dispensing pumps.

Dispensing Equipment

This range includes oil control and delivery guns, booster guns, oil meters, fuel transfer nozzles, automatic nozzles and high capacity nozzles.

Flow Meters

This range includes the Macnaught TM100 Turbine Fuel Meter and the Macnaught DM100 Diesel Flow Meter both used in gravity and pumped applications.

LED Lead Lights

The LED lead lights are safe and easy to use and are shock, water and oil resistant.

Containers

We stock the following fuel handling containers; oil cans, polyethylene jugs, oils cans and funnels.
