

Washdown

Washdown Hose Assemblies

The washdown hose assemblies are suitable for both low and high pressure applications and are available with either plated or stainless steel fittings.

Washdown Hose

The washdown hoses are suitable for use in the food industry in low and high care areas and for general washdown in industry and agriculture.

Washdown Guns

The washdown gun range includes both high and low pressure guns including the popular Dinga gun.

Nozzles

The range of high pressure washdown nozzles includes straight, 15°, adjustable pressure, adjustable, foam, turbo rotating and retrojet nozzles.

Lances

The lances are available in either stainless steel or zinc plated and have a working pressure range of 200 to 250 bar. Twin and foam lances are also available.

Rubber Coated Ball Valves

Rubber coated Stainless Steel ball valves are covered in EPDM and can be used for many different purposes in combination with many accessories.

Adaptors & Couplings

This range consists of lance adaptors, quick connect couplings, quick release couplings and swivels.

Collar protectors

The rubber collar protectors are available in blue, black and yellow and fit on both male and female couplings.
